## 2.6 - Evaluation Process

2.6.1 - Continuous Internal Evaluation (CIE) of student learning is in place in the institution Describe details of the Continuous Internal Evaluation in the institution highlighting its major components in not more than 100-200 words

The institute strives to provide students with a holistic education, so continuous internal evaluation is implemented for that purpose. Since the college is affiliated with Maharishi Dayanand University, Rohtak, it evaluates students by following the parameters established by the university. In theory papers, 20% internal assessment is determined by University criteria, which include submission of assignments, tests, and attendance of students. The examination committee of the college schedules internal exams, setting of question papers, evaluation of answer sheets within a

stipulated period of time, and submission of marks for the academic evaluation of the students. Continuous internal evaluation of students is done by monitoring their attendance, participation in curricular and co-curricular activities, assignments and class tests. On these basis weakness and strengths of students are also diagnosed and remedial teaching is provided.

2.6.3 - Mechanism for grievance redressal related to examination is operationally effective

The institute maintains complete transparency in internal assessment of students. An examination committee is also established to instruct the rules and regulations of exams. Students are informed in advance about internal assessment procedure criteria directed by

the university.

At college level internal examinations are scheduled to prepare the students for annual examinations conducted by the university. Answer Sheets are shown to students to check their doubts and if students have any grievance is redressed immediately. The best answersheet is also shown to students to enable them to do better in future. The final internal assessment marks are calculated on the basis of students' attendance, marks of their class tests and assignment marks.

At university level if any grievances related to university question paper is found during final exams are addressed to the center superintendent and the same is reported to the university.

The examination committee immediately intimates students about the university's decision or information. After examination if students have any grievances related to evaluation of university answersheet student

can apply for challenge evaluation. The college examination committee informed the concerned students about the decision. In this way the institute helps the students if they face any problem regarding evaluation whether it is on college level or university level.

6.3.5 - The institution has a performance appraisal system for teaching and non-teaching staff Describe the process of performance appraisal system for teaching and non-teaching staff in not more than 100 - 200 words.

The goal of a school staff appraisal is to create a thorough yet supportive and developmental process that ensures all staff has the skills and support they need to carry out their role effectively. This process helps to ensure that staff can continue their professional practice and improve, because successful, quality staff ensures positive outcomes for pupils. Everyone has a desire to improve, and for the Institution staff this is no different. The performance management is viewed as a positive and is not confused with capability, which only applies to your staff's performance if there are serious concerns that the performance management process has been unable to address. The confusion between performance management and capability has led to a Reluctance of staff to engage in the process, with feeling that it is about the Institution trying to do something about weak, underperforming teachers. The appraisal summarises the progress and areas of development for teachers and the professional development. With the employee's future development in mind, the staff members can easily formulate an achievable development action plan including timed actions that facilitates the

growth and development of the staff member and contribute to College's improvement, leading to improved outcomes for pupils

6.4.1 - Institution conducts internal or /and external financial audit regularly Describe the process of internal and external financial audits along with the mechanism for settling audit objections, if any, during the year in not more than 100 - 200 words

The Office of Internal Audit works in support of the Board of Trustees and in collaboration with management and external auditors to assess the effectiveness of the internal controls framework devised by the University. The internal controls framework consists of policies, procedures, and activities that safeguard the assets of the organization and ensure that the financial reporting of the Institution is reliable. Internal Audit accomplishes this by evaluating business processes, strategy and the risks that are present within. Internal Audit performs audits with a focus on financial, operational, compliance, strategic and reputation risks. Internal Audit is also responsible for auditing information systems and the controls embedded within those systems to support organizational processes and goals. Our audits are designed to ensure that the College is functioning in the most efficient manner, and that controls are adequate and effective. We perform our audits based on an annual risk-based audit plan by a certified C.A. practitioner.

6.5.2 - The institution reviews its teaching-learning process periodically through IQAC or any other mechanism Describe the process adopted by the institution for reviewing Teaching-Learning Process periodically in not more than 100 - 200 words.

The Institution reviews its Teaching- Learning Process, Structure & Methodologies of Operations and learning Outcomes at periodic intervals through IQAC set up as per norms:

The IQAC continuously reviews and takes steps to improve the quality of the teaching-learning process. The Academic Calendar is prepared in advance, displayed and circulated in the Institute and strictly followed. Summer, winter and mid-term vacations, examination schedule etc. are notified in the Academic Calendar. All newly admitted students have to compulsorily attend the Orientation Programme, in which they are made aware of the philosophy, the uniqueness of the Education system, the teaching learning process, the system of continuous evaluation, compulsory core courses, various co-curricular activities, discipline and culture of the Institute. Students are apprised of the Time-Table, Programme structure, and syllabi of the courses before the commencement of the session. Important announcements are made in the morning assembly and attendance and conduct of classes are taken. Feedback from students is also taken individually by teachers for their respective courses. Students are also free to approach the Principal of the

Institute for feedback and suggestions. Feedback is properly analysed. The teaching-learning processes are reviewed, and improvements implemented, based on the IQAC recommendations.

### INSTITUTIONAL VALUES AND BEST PRACTICES

#### 7.1 - Institutional Values and Social Responsibilities

7.1.1 - Institution has a stated energy policy streamlining ways of energy conservation, use of alternate sources of energy for meeting its power requirements Describe the institution's energy policy streamlining ways of energy conservation, use of alternate sources of energy for meeting its power requirements in not more than 100 - 200 words.

The institution makes effort for energy conservation by reducing energy consumption. Conservation of energy has been done by various methods like planting trees all around the campus so that there is a less usage of air conditioners. Insulating a building allows it to use less heating and cooling energy to achieve and maintain a thermal comfort. Installing LED bulbs, fluorescent lighting or natural skylight windows reduces the amount of energy required to attain the same level of illumination compared to traditional incandescent light bulbs. Designing features of the buildings that maximize the use of natural light. Adding blinds or other window

fixtures in classrooms can allow teachers to reduce glare while trading electrical light for natural sunlight. Natural sunlight creates a more relaxed learning environment compared to the harsh overhead lights that are normally in classrooms. Investing in energy saving power strips by keeping classroom computers and other devices plugged into power strips to help mitigate their standby power usage. Imparting education about how to reduce electricity at Institute many students proudly contribute to the efforts to make their campus green. Switching the lights off when the students leave the classrooms. Unplugging projectors, televisions, computers and smart boards after use.

7.1.2 - Institution has a stated policy and procedure for implementation of waste management Give a brief note on the institution policy for waste management along with its implementation procedure in not more than 100 - 200 words.

Our college has taken initiative to manage the waste generated in its campus. Solid waste segregation is done by hand sorting. Dry waste which includes paper, cardboard, plastic, scrap material is segregated from others. Organic waste like leftover food, peels, pieces of fruit etc. is also collected in separate bins. E-waste Management, College segregates old computers, batteries and wires and disposes them at regular intervals. Electronic components contain varying proportions of glass and metals. The disposal therefore helps in the consequent recycling of aluminum, copper and circuit boards of varying currents. As these are assigned to critical waste, they sort and separate the materials and prepare them for sale as usable raw materials. They are also used to produce new electronics. However, no hazardous chemical waste is generated on the college campus. All these ensure that the college takes care of the waste generated regularly by minimizing the waste, and makes efforts for its reuse and recycling. Laboratory waste is also disposed of to take appropriate measures. Biodegradable waste products are collected and disposed of in municipal collections
